

## Social Media Marketing

Market where your customers are

According to *We Are Social*, there were “2.8 billion global social media users in 2017<sup>1</sup>”. This is causing more companies than ever to evaluate their search engine optimization (SEO) strategy.

SEO Philly is dedicated to helping you reach your goals, and more importantly helping you reach your customers. Our expertise in SEO strategies can help you maximize the impact of your website by making it show up higher in search results. This makes it easier for your clients and potential customers to do business with you.

Social media marketing leverages sites like Facebook and Twitter to build your audience and drive awareness about your products and services. Social media marketing also creates a unique way for your clients and prospects to interact with you.
